

In the drawings:

Fig. 3A has been revised to show that the pyramid angle is $\alpha/2$ rather than α (which is the aperture angle).

REMARKS

This preliminary amendment is presented to place the application in better form for examination and to eliminate multiple dependency from the present claims. No new matter has been added. Early examination and favorable consideration of the above-identified application is earnestly solicited.

Any additional fees or charges required at this time in connection with the application may be charged to our Patent and Trademark Office Deposit Account No. 03-2412.

Respectfully submitted,
COHEN, PONTANI, LIEBERMAN & PAVANE
